MISCELLANEOUS.

THE ATTENTION OF HOUSEKEEPERS AND the public in general is called to the following facts:

The value of Baking Powder is determined by the amount of gas it contains and the freedom of the article from any injurious ingredients. The GIANT BAKING POWDER is absolutely pure, and contains about one-quarter more gas than any brand of Baking Powder in use on this coast. Three cans of GIANT BAKING POWDER are equal to four cans of any other brand. Study economy and use none other. Your grocer will furnish you with a sample can free. Try it.

FACTS.

ELLIS SPAVIN CURE CO.—

DEAR SIRS: We were having an occasion to put a valuable horse in condition for a race. In giving the horse his work he threw out a curb, in consequence of which I would have sold him, at that time, for three hundred dollars ($300) or less. Hearing of Ellis's Spavin Cure Liniment, I tried it with good results. In two weeks the curb was gone and the horse going sound. I put him in condition again, and in two months we sold him for as many thousands as we valued him worth hundreds when he had the curb. The horse is at present boarding at our stable and being driven on the road every day. We can safely recommend your Spavin Cure Liniment for all bone diseases and callous lumps of any kind, if properly used. Yours, with respect,

DUNN & SCHURK.

THE ELLIS SPAVIN CURE CO.—Gentlemen:

Remedies received in good shape. Send me a glass sign by express, to Fonda, well packed, and I think it will come all right. Also send me some of those cards with a horse head and shoe on. I have taken off several curbs, "one very bad," cured a case of sweeney and navicular disease with the Spavin Cure, and restored several worn out horses with the Powders. Yours respectfully,

CHANDLER QUINTIN, V. S.

J. H. Whitson & Son, Twenty-fourth street, N. Y., says: "We have used Ellis's Spavin Cure in our stables for two years, and have tried it on the following with perfect success: Splints, curbs, ringbones, bunches on the neck, swelled ankles; also, quinsy sore throat, and for general stable liniment it is the best article we have ever used."

"I would gladly recommend your Spavin Cure to all, with perfect confidence as to the result," writes H. C. Perry, V. S., Boston.

"We believe Ellis's Horse Remedies to be 'the best articles on the American market.'"—Strauss & Immen, East Twenty-fourth street, New York City.

"Too much cannot be said in praise of your most valuable remedies," says Thomas Bros., N. Y. "We have produced results with them such as we have not been able to do with any others."

"NEWSPAPER DECADENCE."

In a thoughtful article on journalism as a factor in the molding of public opinion, the San Francisco *Examiner* considers the subject lately discussed by the RECORD-UNION in a review of a paper on the decline in influence of the English press.

After stating the position assumed on which is based the judgment that the press is not so potent an influence as formerly in commanding public opinion, because of the growth of independent ideas and the refusal of the thinking classes to accept the dictation of partisan influence, our contemporary says: "Unfortunately, however, for the correctness of these assumptions, newspapers are not solely the exponents of political opinion. Their principal employment is as a medium of news. They are social factors as well as political guides. The public may lose faith in the integrity of organized political forces, but principle is a personal and individual sentiment and becomes effective only when it becomes general. When it reaches this condition the newspaper becomes only a reflection of public opinion."

We held in the outset that the newspaper of influence in this day is that which reflects rather than that which seeks to lead public opinion; the exponent rather than the creator of opinion. When, therefore, it is said that the power of the press is lessening, it must be understood that its power in dictation only is decreasing, and that the purely partisan press is losing ground. But in truth the power of the independent press as a factor in the formation of public opinion is greater than ever before, because it is the chief medium for the dissemination of intelligence on politico-economic questions.

As it is true that "individual sentiment becomes effective only when it becomes general," so also is it true that the most efficient means for promulgating individual sentiment, and bringing about preponderating opinion in one direction, is the press. It has usurped almost to exclusion the rostrum and the pulpit in this respect. We are given our case when it is admitted that the principal employment of the modern newspaper is the collating and dissemination of news. Precisely for that reason is it true that the English press was lately suffering a decline as a power. Formerly its influence resided chiefly in its expressed opinions, and largely in its dogmatism and in its low estimate of the value of news publication. Indeed, we do not put it strongly when we say that the London press especially assumed to do the thinking for its constituency. It is now, however, recognizing a fact that American journalism long since accepted, that it is wiser to be the molder and reflector of public opinion, and that the press of the country is more influential in presenting to its readers news, and in debate with them of news and public topics.

The methods employed in gathering and presenting news, in collating and advancing facts, and in arranging and discussing them, are to-day further advanced than ever before, and by their advance the influence of the press is to be measured as well as by the soundness of its reasoning. In the fact that the press is the most potent agency in bringing into necessary intellectual attrition the differing opinions of what Virgil terms "the uncertain multitude," and out of which friction is ground what we term public opinion, or the greatest possible agreement of public sentiments, resides the greatest power of the press, and this force is not only not suffering decadence, but is constantly augmenting.

PAUPER IMMIGRATION.

The Secretary of the Treasury in his recent report points out the need for further legislation to prevent the introduction into the United States of pauper immigrants, lunatics, idiots, convicts, and persons "unable to take care of themselves, without becoming a public charge." The heavy immigration of this character last spring and summer aroused the people to the necessity of checking it. A regulation was found which exists under a a statute, and makes it the duty of the Treasury Department to refuse landing to all such immigrants. But it appears that the law under which the supervising boards or commissions of immigration must act, provides no penalties for its violation. The recommendation of the Secretary appears to be a wise one; he proposes that owners of vessels shall be subjected to a penalty for transporting to our shores the characters to whom the law denies the right to land. This penalty should be made a lien upon the vessel. It should be large enough to defray the expense of care and deportation. The surplus of penalties collected should go toward the creation and maintenance of a fund for the especial purpose of deportation and of temporary care of pauper immigration. Judge Folger very properly—in the light of the immigration of last summer—manifests justifiable irritation on behalf of the United States over the acts of Governments which seek to discharge their pauper sluices upon our soil. He says: "It occurs that alien paupers and others in indigent circumstances have arrived from Europe, whose passage money and other expenses incident to the voyage, and but little more, were paid by the respective Governments or municipalities from which they came, or by voluntary associations abroad. They are liable to become a public charge upon the communities in which they land, unless cared for awhile by the Commissioners, and as soon as may be sent back where they belong. Such of these as were found incapable of self-support have, as far as practicable, been returned. Such practice by foreign authorities, whether of high or low degree, *is discourteous, if not worse*, and this department has sought, through the State Department, to persuade them to an abandonment of it; it is feared without full measure of success."

PATCHING THE RESTRICTION ACT.

Congressman Budd has introduced a bill to patch up the Chinese Restriction Act. Something of the kind is needed. The synopsis of the bill published represents it as adequate, and as closing all the breaches the customs authorities and the Courts have found in the present law, and we judge that it quite fills the demand. It requires the certificates to be so full and detailed as to establish beyond question the right of the traveler to land, and calls for all such documents to bear the indorsement of our own Consul at the port of departure. To this clause the Chinese Government will, of course, object; but it would appear to be reasonable. If there is no fraud in the certification, if the immigrant is honestly a merchant or a student, the Consul's indorsement will further, rather than retard, the landing. Instead of "Chinese laborers," Mr. Budd's bill reads "Chinese and Mongolian laborers." Such a clause will dispose of the question of the foreign citizenship of the immigrant, and meets the objections of the Massachusetts decision. Another important provision of the new bill is to require the deportation of those who gain admission under plea of engaging in mercantile pursuits and then abandon them. Over this clause there will be unquestionably a hot contest. But of what earthly use is it to exclude an objectionable class if it can by false pretense, made manifest by subsequent conduct, gain privileges against which the law is especially directed? Another important feature of the bill is that which prohibits the excluded class transit through the country from another country en route to China or elsewhere. This section appears harsh, but unless it is adopted, or the passage of such persons made under guard, there will be left in the restrictive scheme a fatal gap.

BLOW FOR BLOW.

It appears that Germany now not only prohibits the introduction of American pork, but forbids absolutely the transportation through the Empire of American hog products in sealed cans. This is, Consul Mason asserts, to protect German dealers. The cry of diseased pork is mere clap-trap, intended to mask the real purpose. In the light of these facts the country will approve the retaliatory resolution of Representative Townshend, prohibiting the importation of any goods from Germany which, upon the advice of exports, the President shall hold to be injurious to health. This is a case, evidently, in which the "turn-the-other-cheek" doctrine has no application. Nations are more likely to give blow for blow. The President in his late message has indicated that retaliatory policy would please him, and that he will enforce it, if authorized.

ACCORDING to the London correspondent of the New York *Tribune*, the utterances of Mr. Henry George are seized on with avidity by certain English politicians. Thus Mr. Richards, future Conservative candidate for Northampton, quotes Mr. George on American institutions as follows: "The ordinary citizen has no more influence in the Government under which he lives than he would have in China. The experiment of popular government in the United States is clearly a failure."

CHIEF JUSTICE COLERIDGE is entitled to the thanks and eternal gratitude of the American people. He came, he spent some weeks with us, he was observant, critical and non-committal. He returned to England, and now the telegraph informs us that he not only refuses to write a book on the United States and their people, but even shrinks from penning a magazine article on "Americans." Blessed be Coleridge and all his tribe.

GENERAL HANCOCK'S reception on this coast has been a cordial one, and evinces the esteem in which the people hold their veteran soldiers and great captains who have fought to maintain the integrity of the Union. His reception at Sacramento was of the most marked and cordial character, and for an impromptu affair was surprisingly successful.

WHILE there was some warmth manifest over Southern representation in the Convention of June next, the action of the National Republican Committee at its recent meeting indicates that the party is united, and will come up in June as a mighty factor in politics, and one that will name the next President of the United States.

CALIFORNIA is, of course, a very small part of the Union. It is at the East deemed a mere annex, and its weakness in population makes it the subject, often, of contemptuous remark; but why such anger should be manifest over the appointment of one of our Senators to the chairmanship of a committee is incomprehensible.

☞ The report of Drs. Cluness and Hatch, who have been visiting the Mexican border with a view to more stringent quarantines against yellow fever, gives emphasis to the necessity for the adoption of radical measures at once. If there is apathy on this subject yellow fever will enter the southern valleys by April 1st.

PACIFIC SLOPE.

Colton vs. Stanford—Affairs in Oregon—Capture of Murderers in Monterey County—Arrest on a Serious Charge in Nevada City—Advices from Arizona—The Eureka Consolidated's Secretary—Etc.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

CALIFORNIA.

The Colton Case.

SANTA ROSA, December 13th.—Charles E. Green was recalled by plaintiff this morning to identify the books and papers in his possession at the time of General Colton's death, which he subsequently sent to Mrs. Colton. The witness, after a close scrutiny, marked such books, etc., as he could identify. Their identity was established, as counsel stated, for the purpose of being used hereafter on the examination of other witnesses.

After recess, J. O'B. Gunn testified that he occasionally acted as accountant for Messrs. Stanford, Huntington and Crocker. That he was Secretary and Director of the Northern Railway and other roads now leased to the Central Pacific; that on April 30, 1879, 30,086 shares of Northern Railway stock had been issued and subscribed for, all of which eventually became the property of the Western Development Company; that prior to September, 1878, the road was leased to the California Pacific at a yearly rental of $1,500 per mile; that on that date a new arrangement was made with the Central Pacific Railroad, under which the rentals for the following year aggregated $637,825, and for the next succeeding four months $253,523; that on February 18, 1880, a five-year lease was made, at a rental of $47,500, under which the Central Pacific is now operating the road; that these rentals have enabled the Northern Railway to pay the interest on its bonds, and to declare three annual dividends on its stock since February, 1881, aggregating $675,000; that these several dividends were paid to Mr. Douty, as Secretary of the Western Development Company, which was the sole owner of the stock mentioned. As to the financial standing of the Northern Railway on February 28, 1880, a year prior to the declaring of the first dividend, witness stated that it had on deposit with the Pacific Improvement Company $116,116 19, out of which counsel claimed, in a stage whisper, that a four per cent dividend ought to have been declared. The next inquiry was regarding an item of $298,000, charged on April 30, 1879, in "Exhibit E," as a liability of the Western Development Company. An examination of the Northern Railway Company's ledger failed to reveal any such indebtedness, but a glance at its cash-book shows that the railway had deposited with the Western Development Company, up to and including the date mentioned, $441,007 06. In the absence of the trial-balance for that date, the witness stated that he could not explain the apparent discrepancy. Pending an examination of the affairs of the San Pablo and Tulare Railroad, the Court adjourned until to-morrow morning.

Fifty Thousand Short — Arrival from China.

SAN FRANCISCO, December 13th.—Percy Jacobus, Secretary of the Eureka Consolidated Mining Company, who has been under detective surveillance during the examination of the books of the company, was arrested to-day, and jailed in default of bail. The books show him about $50,000 short. He denies having embezzled anything, and says the matter will be all straightened out. The books also show an over-issue of 1,800 shares of stock. Jacobus has been leading a fast life.

The steamer Oceanic arrived to-day from China. She brings 226 Canton certificated Chinamen. A rigid examination is being conducted, with a new white interpreter. There are, in addition, on board, 80 with return certificates, and 67 in transit.

A Serious Charge.

NEVADA, December 13th.—This evening Ed. Tralich, foreman of the Centennial mine, near Washington, was arrested, charged with making an indecent assault upon a twelve-year-old daughter of Smith Hetherington, of this city, while the girl was returning home from school. Tralich has been in town two or three days, and was intoxicated when he assaulted the girl. Hitherto he has borne a good reputation. He is now in jail.

Murderers Captured.

SALINAS, December 13th.—Sheriff Graves, assisted by Deputies Cayer and McLaughlin, have captured and lodged in jail two Californians, named Solomon Torres and Manuel Soto, who are charged with the murder of the Chinaman at Blanco on Monday night. There is a third party still at large, but it is believed he will be brought in before to-morrow night.

ARIZONA.

Fleeing from the Wrath to Come.

TUCSON, December 13th.—It is rumored that C. H. Lord, Postmaster of this place, convicted of cutting Government timber at the last session of the District Court, who was to appear on the 18th instant for sentence, has absconded to Mexico.

Damages Recovered—Threatening Letters.

TOMBSTONE, December 13th.—In the case of James Hobbs vs. The New Mexico and Arizona Railroad Company, the plaintiff yesterday got judgment for $20,000 damages for the loss of both legs in a collision at Benson in November, 1881. The suit was brought for $50,000. A motion has been made for a new trial.

During the past two days Williams, Goldwater, Lowenberg and other prominent citizens of Bisbee, have been receiving threatening letters. They are all addressed in a scrawling hand, evidently written by the same person. Following is a copy:

"Keep your mouth shut, or you will be shot.
(Signed), ONE OF THE BOYS."

Superintendent Ben. Williams, of the Copper Queen, this morning offered a reward of $1,000 for information as to the authors of the letters.

Found Guilty of Stage Robbery.

PRESCOTT, December 13th.—Givens, who has been on trial for stage robbery, was found guilty. He had two previous trials in the Territory, the jury disagreeing.

OREGON.

Advices from Portland.

PORTLAND, December 13th.—Young Alvin Dudley, charged with the seduction of Miss Maud Longfellow, has been held to await the action of the Grand Jury in the sum of $500.

From the latest information received from the tragedy recently enacted at Prineville, Or., it is learned that the quarrel between Beth Thompson and his victim grew out of the fact that Morgan accused Thompson of being instrumental in the killing of Morgan's brother Mike, about one year ago. It seems to have been a cowardly murder, as the victim was unarmed. Thompson surrendered to the Sheriff at once. Morgan was married to his brother's widow about six weeks ago.

No new transactions in the freight market, the firmness with which available tonnage is held seeming to preclude business. The sales of wheat appear to be entirely confined to the purchases at interior points for mining uses. Shippers seem to agree that the present month will see them largely in the position of onlookers, and are using all possible dispatch to fill up the fleet now here. There is so little tonnage to arrive not provided for that no attention is paid to it.

Weather cold, clear and lovely.

PORTLAND, December 13th.—Sheriff Dale, of Columbia county, to-day brought up David Cloninger, charged with the murder of Frank Pierce, and put him in the county jail here for safe keeping.

An attempt will be made to have the sentence of John Zefus, sentenced to be hanged January 15th for the murder of Daniel Haggerty, commuted to life imprisonment, on the ground that he is not morally responsible for the crime.

In moving several vessels to-day at Astoria a general collision occurred. The steam collier Willamette collided with the steamer Dixie Thompson, the British barks Glenlifer and Bolivia ran into each other, and the ship Imperial came in collision with a large bark. Strange to say no one was injured, and the damage to all vessels is slight.

George M. Pullman and Henry Villard have concluded a contract to fully equip the Oregon and California Railroad with palace sleepers between Portland and Grant's Pass.

General Edward Hamilton, an old Pioneer of Portland, died to-day, at the advanced age of 82. The deceased had resided here over thirty years, served with distinction in the Mexican war with General Taylor, was for years prominently identified with politics in Ohio. In 1850 he was appointed by President Taylor Territorial Secretary of Oregon, and filled the position during the time General Joseph Lane was Provisional Governor of the Territory. He has held at various periods positions of high trust. He was a lawyer by profession. He was a man of pure character and stainless honor.

Two trains on the Oregon Railway and Navigation Company's road collided near East Portland this evening. The trains were badly ditched. Fortunately no one was injured.

A Chinaman named Doo Woon was arrested here a few days ago on a warrant from San Francisco, charging him with embezzlement. To-day Judge Deady discharged him on a writ of habeas corpus. He was immediately rearrested on another charge, and will be sent below on to-morrow's steamer.

A MONUMENTAL "SELL."

Among the list of passengers telegraphed from Newhall, on the Southern Pacific Railroad, to arrive here yesterday, was the name of "John L. Sullivan and trainer." This being the cognomen of the champion Boston "slogger," the announcement of his expected arrival caused no little excitement in sporting circles, and hasty preparations were made by a host of sports to meet the great hitter anywhere this side of Port Costa. Yesterday morning's train bore Muldoon, Hanlan and a large number of their friends, all eager to give the prize-fighter a cordial welcome to the Pacific slope and a grand ovation on his arrival. Con Mooney, Billy Jordan, Harry Maynard, Patsy Hogan and many others distributed themselves between this city and San Pablo, to board the coming train and meet the renowned Bostonian. Fifty or sixty other sporting men, whose names are not so familiar to the general public, went over on the 1:30 boat to catch a glimpse of or to shake hands with John L. The news of his expected arrival spread far up the road, and at every station the train was besieged by curious people, all intent on seeing the great man. A well known sporting man had intended meeting Sullivan at the wharf with a six-horse barouche, but he was quietly informed by a gentleman who knew Sullivan well that such a reception and display would not be acceptable, and he did not air the carriage and six. After all these preparations and gathering of clans, the news that the report was false paralyzed everybody.

At Port Costa a crowd of Sullivan's countrymen rushed eagerly up to the train and demanded to know in which car Sullivan was. "He's in the baggage-car," yelled a wag of a brakeman. A scramble was made for the car, but the door would not open. The platform was soon jammed, but still no slogger. Then the train began moving, and the disappointed crowd got off and let off their enthusiasm with shouts of "Hurrah for Boston! Three cheers for Sullivan!" As the ferryboat steamed up to the wharf, every point where a view could be had was taken, while outside the gates fully 1,000 or 1,500 people assembled. When the passengers disembarked the fun began. "That's him," some knowing person shouted as he saw a tall, manly-looking granger shuffle along. "No, that's not him." Another shouted, "There's the cove coming now with the stovepipe." But the sell soon leaked out, and with shouts of laughter, jests, and, from some, howls of disappointment, the throng of eager, excited people scattered, and soon the ferries wore only their usual appearance.

The sell was probably perpetrated by some joker, who gave the name of Sullivan at Newhall, or it might have been a namesake of the pugilist; but this is not likely, as the passenger list contained the word "trainer" after Sullivan's name.

Sullivan, when last heard from, was in Kansas with his combination. All the sports seem to have discovered, when the joke was out, that they knew Sullivan would not be here probably before the 10th of next month. He is in training now, and coining money with his combination, and will, no doubt, give exhibitions at all points on the overland route.—[S. F. Post, Dec. 13th.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: **Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION,** and demand the use of a remedy that acts directly on the Liver. As a Liver medicine **TUTT'S PILLS** have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three **"scavengers of the system,"** producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. **TUTT'S PILLS** cause no nausea or griping nor interfere with daily work and are a perfect

THE DAILY RECORD-UNION.

FRIDAY.....DECEMBER 14, 1883

NEW YEAR'S PAPER.

According to a custom which has marked the course of this journal for many years, its issue on the first day of January, 1884, will be quadruple in pages, and of enlarged size of form. The holiday number will be devoted to special articles of living interest from a number of skilled writers. It will also present very prominently the interests of the city of Sacramento and fairly and fully present its claims as the second city in the State in commercial importance. We shall not make special business notices a prominent feature, nor permit them to subordinate the literary matter and commercial exhibits, but a reasonable space will be allowed to the presentation of the claims of leading lines of business. The aim will be to make the issue thoroughly readable and representative. The paper will be a superior one to mail abroad and for home reading. Orders for extra copies should be filed at once, that the edition, which will be a very large one, may be made adequate to the demand.

LOCAL INTELLIGENCE.

WILL YELLOW FEVER COME?

The possibility of this State receiving a visit from "yellow jack" next summer, when the reeking pools and pest-breeding spots in Sacramento are sending out its contribution of malarial vapors and plague inducements, brings the people face to face with the idea of erecting every barrier against the approach of the dread scourge, even if the danger yet lies dormant months away. Ex-Secretary of State D. M. Burns, now in this city, was so unfortunate while in Mexico this summer as to fall in the path of the epidemic, and a painful acquaintance with the ravaging monster was sustained amid scenes of ghastly horror, and every incident of that dreadful drama is vividly impressed upon his memory. He reviews the statements of J. E. Day, published in the RECORD-UNION October 26th, in regard to affairs in Mexico, as beyond the facts. His story that the Board of Health speculated with their official positions, and for a money consideration issued clean bills of health, he thinks is unreasonable. He declares Day's story regarding the total lack of security to the lives and property of Americans as not only false, but cruel; for he considers the laws relating to the property of foreigners as excellent, and the lives of travelers in Mexico far safer than in parts of California and Nevada. Mr. Burns says that out of a hundred sick foreigners in Mazatlan, only five or six died, which small fatality was owing to care and proper treatment.

Concerning the care and treatment of a yellow-fever patient, he says that the principal thing in the management of yellow fever is to keep the patient warm and clean. If perspiration can be started, and the bed clothing changed frequently, the person will get well nine cases out of ten. But the poor native lies down on a bit of matting, opens the doors, and seeks to cool his fever-scorched body, and he dies almost invariably. He believes that the disease travels through the atmosphere favorable to its existence, without the aid of inoculated objects; for at Cosala, with 180 miles and a wide uninhabited desert lying between it and Mazatlan, and no communication permitted with the latter place, 500, out of a population of 2,000, were suddenly stricken down. He thinks that when the epidemic again scourges Mexico it will reach this State by land, finding entrance either by San Diego or by Tucson and Yuma, and then the malarial cities of California will know yellow jack.

Travelers in South America and Mexico say that they always knew when they were approaching a large town by the offensive smells which came from the place. No sewer system is known, no street-sweeper is ever seen there. The buzzards, gaunt and ghastly birds of death, forever roost on the walls, and when a cat or mule dies they fly down and feast. This is the birthplace and the home of the yellow fever.

THIEVES.—As the days and nights get colder the thieves become correspondingly colder and consequently bolder, and they freeze to things with greater avidity. Jake Smith was again arrested last night for the theft of an overcoat. Verily, it was a cold day when Jake took that garment, for he shivers with chilling thoughts of the Police Court's awful frown. Ah Ten and Ah Chung were also arrested for the theft of a pair of red blankets from the horses of a hackman, and thereby adding to the crime of robbery that of cruelty to animals. Gin Hung was arrested for stealing coke from Gardner's wood and coal yard on I street, for which things will be made warm for him today in Court—but not with coke.

WEATHER REPORT.—The temperature, wind and weather at 12 M. yesterday, as received by Sergeant Barwick, was: For Tatoosh, 45°, east and clear; Olympia, 41°, calm and cloudy; Portland, 46°, north and clear; Roseburg, 40°, west and cloudy; Mendocino, 47°, southeast and foggy; Red Bluff, 41°, south and clear; Sacramento, 38°, east and foggy; San Francisco, 47°, north and clear; Los Angeles, 71°, west and clear; San Diego, 66°, northwest and clear; Salt Lake, 29°, calm and threatening; Cheyenne, 29°, north and clear; Denver, 38°, east and clear; North Platte, 41°, north and clear; Omaha, 44°, north and fair; Yankton, 42°, north and clear.

NUISANCE CASE.—Judge Armstrong yesterday decided the appealed case popularly known as the Chandler-Mesick nuisance case. The case was argued and submitted some time ago. Yesterday the Court filed its opinion, which will appear in these columns in full to-morrow. The decision is of much importance to the sanitary interests of this city, and no mere synopsis of it will be satisfactory. It is understood that the questions presented have never been passed upon by the Supreme Court of California, and the case is therefore a new one, and the opinion will be of interest to other cities as well as Sacramento. The decision reverses the Court below, which held defendant Chandler liable.

AN OLD PILOT.—Walter Buddington, one of the oldest pilots on the Sacramento river, died in Oakland last Tuesday. He was a native of New London county, Conn., and was about 55 years of age. He was a pioneer of 1849, and had been running on the Sacramento for about twenty-five years. Two months ago, while pilot of the steamer Apache, he was stricken with paralysis, from which he never recovered.

SATURDAY we will display a new assortment of holiday goods which will be desirable for Christmas and New Year's presents. Red House.

FOR a complete assortment of gents' all-wool underwear of a No. 1 quality, call at Woolen Mills Depot, 822 J street.

BUTLERISM.

The Trouble in the Board of Education—The Scheme to Force S. W. Butler Upon the People—Proceedings Last Night.

The Board of Education of this city promises to be the battleground of a contest that cannot result otherwise than injuriously to the interests of the public schools.

The facts are not at all pleasant to publish, but it would be positive dereliction of duty and contemptible cowardice to now withhold them. They are already in the mouth of Rumor, and form one of the topics of street gossip.

Some time ago the selection of candidates for School Directors came before the public in the form of a discussion as to the fitness of candidates. It was the voice of the people as clearly expressed as it could be, without direct vote, that men who were laboring to secure nominations to Directorships (which are unsalaried), should not be countenanced. It is a popular belief that if a man is anxious, urgent and persistent in efforts to gain a seat on the School Board, there are ulterior motives attracting him, either to use his place for personal pecuniary gain; to exercise authority to flatter his vanity; to advance his political ambition, or possibly to vindicate a damaged reputation.

It is not denied that it is at variance with good government of the schools to make a School Directorship the stepping-stone for political advancement. Whenever school offices are so used the schools suffer. There have been attempts to use the school offices of this city for such purposes. The RECORD-UNION took occasion to say that whoever aspired and worked and "log-rolled" to secure a seat on the Board of Education should be "sat down upon" without hesitation. It declared its belief that the nomination of S. W. Butler in the Fourth Ward was not in the interests of the school department. It was not the medium of personal animosity against Mr. Butler; it opposed him because he was working for the position, and because as it then and still believes for one or more of the reasons stated.

Such an assault was made by the press and people upon the Republican City Central Committee that a scheme in that committee to nominate Butler was defeated, and Frank Avery was nominated and elected by a handsome majority over a popular Democratic candidate, Matt F. Johnson.

By the acceptance of that nomination and the ratification at the polls, the electors of the Fourth Ward distinctly announced their opposition to the aspirations of S. W. Butler.

But the ringsters were angered at the RECORD-UNION and every one who aided to defeat their schemes. They swore to have their sweet revenge, and very soon began to plan to take it. Their assaults upon this paper for its position, we care nothing for, but their assaults upon the public school system shall not pass by unnoticed, and their present plans amount to nothing less.

The election was not over before there came to this journal all the details of a scheme to seat Butler despite the election. The plan was to avail of the expected resignation of Director O. P. Goodhue, of the Fourth Ward (necessary because of removal from the city). The Butler men held that when that vacancy occurred they would have enough votes in the Board, by the accession of four new members, three Republicans and one Democrat, to seat Butler.

But knowing Mr. Goodhue to be friendly to no such outrage upon the expressed desires of the people of the ward, they anticipated that he might tender his resignation before the new members came in, to his old colleagues. This they knew would be fatal to Butlerian hopes, for the present Board would never reinstate him. They therefore arranged, and it was known a week ago, in all its details, that two members, should the matter come up, should arise and retire, and thus leave the Board without a quorum, and unable to fill the Goodhue vacancy.

It is understood that friends of Mr. Goodhue communicated this news to him at San Francisco, whereupon he sent up his resignation to the Board as now constituted. In the mean time the Butler men kept posted, and left no stone unturned to attain victory and enable them to "crow" over all opponents. They acted as if it were fact that the Fourth Ward is so deficient of material for School Director that no one but Butler can be found for the place—a conclusion not at all complimentary to the 800 electors of that precinct.

Of course, after this exposure there will be again raised the partisan howl about Republicanism and party interests, and abuse of a press that dares to rebuke chicane in its own party will be copious. It is to be noted that the men who are most active in all the schemes to seat Butler are not residents of the Fourth Ward. The active interest they take in the affairs of that precinct must awaken the gratitude of the electors of the ward, who are so foolish as to imagine that they best know whom they desire to represent them.

The plan to seat Butler has one of the roots of its early origin in a scheme to oust certain teachers now in the schools, in order to reinstate "dropped" teachers, some of whom have been indiscreet enough to boast of their expected triumph.

The outlook now seems to be that the plot to seat Butler will be successful, and that he will be forced upon the people of the Fourth Ward, whether they wish him or not.

The following report of last night's proceedings in the Board of Education testifies to the faithfulness with which the Butler scheme is being worked and the programme carried out:

A special meeting of the City Board of Education was held last evening, all the members present except O. P. Goodhue. The President, Mr. Tracy, stated that the Board had been called together to consider the resignation of Mr. Goodhue, and to approve the teachers' pay-roll for the present month, so that they might have their pay before the holidays.

The resignation of Mr. Goodhue was taken up, and reads as follows:

SAN FRANCISCO, December 12, 1883.

To the Board of Education, Sacramento city—Gentlemen: I herewith tender my resignation as a member of your Board. I regret very much to be obliged to take this step, but in justice to you, as well as myself, think it should be done, as my health prevents my attending to the duties. I remain your most obedient servant,

O. P. GOODHUE.

Mr. Tracy said he desired to state that a report had been in circulation that he had received, some time since, the resignation of Mr. Goodhue, and that he desired to be elected to the vacancy. He would simply say that he had never received Mr. Goodhue's resignation, nor asked for it, and further, that he would not accept election upon the Board under any consideration whatever, either to fill the vacancy or otherwise.

Mr. Stalker said the resignation was received by him about mail, direct from Mr. Goodhue, who is now in San Francisco, on Wednesday evening. Mr. Stalker moved that the resignation be accepted and a vacancy declared.

Mr. Cooke seconded the motion.

Mr. Stevens asked if there was not a communication on the table that should be read before action was taken on that motion.

The Chair directed the Secretary to read any communications in his hands, and the following from the Republican City Central Committee was read:

SACRAMENTO, December 13, 1883.

Understanding that the resignation of O. P. Goodhue, one of the members of your honorable Board, will be presented at your meeting to-night, we respectfully request that the vacancy that will be thus created, be not filled until the coming in of the new Board of Education in January. As the member who will be selected to succeed Mr. Goodhue will serve with the members of the new Board for an entire year, we deem as simple courtesy to the incoming members to allow them a voice in the selection of their colleague.

To the Honorable Board of Education of the city of Sacramento.

Winfield J. Davis, Chairman, representing City Committee; A. J. Rhoads, secretary; K. F. Wiemeyer, J. W. Wilson, R. T. Devlin, F. A. Smith, Dougald Gillis, S. J. Jackson and Conran.

The Chair—Are there any more communications, Mr. Secretary—any from the Democratic City Central Committee or the citizens' organization?

The Secretary replied that there was not.

The Chair then stated the question was upon the adoption of the motion accepting the resignation and declaring a vacancy. The motion was unanimously adopted.

Mr. Cooke moved that the Board proceed to elect a member to fill the vacancy. The motion was seconded by Messrs. Stalker and Hancock.

Mr. Cooke said he desired to state that he considered this a matter entirely outside of politics, and that politics nor political methods should be allowed to enter into it nor interfere.

Mr. Stevens said he was opposed to filling this vacancy, as it was a matter of courtesy to allow the new Board to elect the man who was to sit with them during the year for which he would be elected.

Mr. Slater looked at it, he said, in the same light, and that it would be only courteous to the new Board to let it select the man to fill the vacancy.

Mr. Cooke thought there was no force in the point stated, and that it would only serve to permit politics to enter into and control the action of the Board.

Mr. Stevens replied that he did not see why the Board should not pay some attention to the request of the Republican City Central Committee, since all the members of the Board had received their nominations at its hands.

Mr. Cooke—Yes, and one of the members of this Board was renominated by the committee for this purpose that he should be slaughtered.

Mr. Stalker—Yes, that is so; that was the purpose for which I was nominated by the committee, as is now well known.

Further remarks were made upon this subject, in which it was warmly stated by two or three that this was apparently part of a scheme for yet foisting S. W. Butler upon the Board.

After matters had somewhat quieted down, Mr. Stevens said he thought the wishes of the City Central Committee, notwithstanding what had been said, should be respected.

Mr. Tracy said he supposed it was Mr. Goodhue's intention that the present Board shoul elect his successor. If not, why did he not withhold it until after the new Board had met?

Mr. Stalker asserted that Mr. Goodhue *did* expect to have the present Board fill the vacancy, and it was for that purpose that the resignation was forwarded at this time. He thought the wishes of Mr. Goodhue and the judgment of a majority of the Board were entitled to as much respect as those of the City Central Committee.

A vote was then taken upon the motion to proceed to elect, and it was carried. Ayes—Cooke, Hancock, Stalker and Tracy. Noes—Slater and Stevens.

The Chair then stated nominations were in order, and Mr. Cooke nominated Andrew Aiken and Mr. Tracy nominated Elwood Bruner. The nominations were seconded.

At this point Mr. Stevens arose and said he should decline to take any part in election proceedings, as he thought it was not treating the Central Committee square.

Mr. Slater said that was also his opinion, and he should not remain at any further proceedings.

Such action was deprecated by the Chair and Mr. Hancock, who thought the members should abide by the duly constituted majority. Rapid exchange of views between all followed, and considerable feeling was manifest.

Mr. Cooke said it had been told for a considerable time back that if this resignation was received and came up for action, two members of the Board would get up and leave the Board for the purpose of preventing an election until the new Board came in, in order that Butler might then be elected.

Mr. Slater denied that anyone had any authority to say so about him, and Mr. Stevens reiterated the statement as regarded himself.

Mr. Tracy replied that while it might not have been stated upon authority, it seems that it had proven a remarkably good guess at what was to happen.

Messrs. Slater and Stevens then walked out, leaving only four members of the Board present. After a consultation among the remaining members as to their power to elect, in the absence of the other members, the President stated that he was in doubt whether there was a legal quorum present for the conclusion of business, and it was better not to attempt to elect if the legality of the act would be questionable. There was, however, he said, other matters of importance to come before the Board—the approval of the teachers' pay-roll for December, so they could have their pay before the holidays, and also the question whether the High School could not, under the law, continue its sessions during the three days of vacation in the other schools, on account of the Teachers' Institute, which would convene on the 19th instant. He therefore suggested that the Board adjourn until this evening, to enable the other members of the Board to be present, so that the teachers' salaries might be allowed. He presumed they would readily meet with the Board for that purpose, but if they did not, the responsibility of keeping the teachers out of their salaries would be upon them. The Board adjourned to 7:30 this evening.

LOCAL DASHES.

Lot No. 4, in block bounded by K and L, Twenty-third and Twenty-fourth streets, was sold yesterday by D. J. Simmons to C. Bitzer, for $1,515.

Early last evening the roofs of the houses were noticed to be white with a heavy frost, the air at that time being clear and cold, but the fog resumed its sway later.

The overcoat taken from a Chinaman Monday night belonged to James R. Sheehan, and was stolen from the rack while the owner was at supper in the Central Hotel.

Governor Stoneman has appointed as Notaries Public W. B. Reynolds for Sonoma county, to reside at Healdsburg, and W. B. Davis for Sacramento county, to reside at Sacramento.

Daniel Downs, who was injured severely at The Needles, by being caught between two cars, and who is receiving care and treatment at the Railroad Hospital in this city, is somewhat improved.

The Bric-a-Brac Club holds a meeting at its rooms to-night, at which the active members will consider details for the Christmas reception of the club at the residence of Mrs. W. A. Hughson.

The officers and members of Court Capital of California, No. 6,742, paid a fraternal visit to Court Sacramento, No. 6,861, A. O. F., last evening. The time was most pleasantly spent, and speeches, songs and recitations were the order of the occasion.

The liquor license cases have been transferred to the Superior Court and preparations made for a large campaign. Judge Rhodes, E. J. Pringle, and Babb & Buhlert, of San Francisco, will appear for the defendants, and Matt. Johnson, and Edgerton & Post for the people.

Yesterday, in the Police Court, the five-dollar deposit of Louis White, charged with visiting an opium den, was declared forfeited, he not appearing to answer. The misdemeanor case of N. Ling was continued till to-day, and Lee Leck, accused of battering a countryman, was discharged.

SCHOOL ENTERTAINMENT.—The entertainment given by the pupils of American River School last Saturday evening was very interesting. It was given for the purpose of raising funds to lengthen out the present term of the school, and was a financial success, the house being crowded with an audience that was well pleased with the exercises, which consisted of selections of vocal and instrumental music, recitations, medley pantomimes and declamations. All who took part did exceedingly well. The success reflects great credit upon Miss Kate M. Morford, the teacher, who had charge of the affair. A noticeable feature in the programme was the dialogue by seven young ladies dressed in white, with starry scarfs and crowns, each one representing a rainbow color, entitled, "We Heard the Thunder, and then the Rainbow was Seen," which was well rendered. A large cake was donated by Mrs. Fisher, in which was placed a ring, donated by H. Wachhorst. The cake was divided and sold, Mr. Smith, of the firm of C. H. Stevens & Co., getting the piece that contained the ring. A smaller cake was donated by Miss Ward containing a ring given by W. B. Miller, which was drawn by Mrs. Olson, 1912 J street. The proceeds of the entertainment were: Tickets, $190; fish ponds, dolls, candy, donations, etc., $31 30; large cake and ring, $9 70; small cake and ring, $6, making a total of $237.

AUCTION SALE.—To-day, at 2 and 7 P. M., Bell & Co. will sell at their auction rooms, at the corner of Eighth and K streets, seventy oil paintings, comprising California and other sketches by well-known artists. Also French, English and German line engravings and water colors, with antique, bronze, gold and plush frames of the newest designs.

LECTURE.—A temperance lecture will be given by Mrs. M. C. Leavett, from the East, at the Ninth-street Baptist Church this evening, and also to-morrow evening. Mrs. Leavett is a co-worker of Miss Frances Willard in the cause, and is lecturer for the Women's Christian Temperance Union. She is an able speaker.

CONCERT TO NIGHT.—A concert will be given to-night at Fireman's Hall, for the benefit of the Sons of Temperance. A collation will be served at the close of the exercises. The Hon. Gillis Doty will deliver a "welcome" address. Edna Godley and Pearlie Jackson will act the "Drunkard's" scene in character.

CONFIRMATION.—Archbishop Riordan, of San Francisco, will officiate and preach at the high mass in St. Rose Church to-morrow, and will also administer the sacrament of confirmation to a large number of children and adults at 2 o'clock P. M. at the same place.

A MURDERER PLEADS GUILTY.—The subjoined is extracted from the Willows (Colusa county) *Journal:*

It will be remembered that a new trial was secured for Doc. Stewart, who was convicted in the Superior Court of this county of manslaughter, for having killed a young man named Finnell in Arbuckle some time during last year, and sentenced to a term of years in the Penitentiary at Folsom. The second trial of the accused was to have taken place this week. Sheriff Davis went out, under an order of the Court, to obtain a jury, the venire to be returned Tuesday morning. All those who went from this place arrived at Colusa only to learn that Stewart had pleaded guilty to the very charge of which he had at his first trial been found guilty. Judge Bridgford sentenced Stewart to an imprisonment of eight years at Folsom, gave the defendant's counsel a deserved overhauling for putting the county to an unnecessary expense, and excused the venire from which he expected to secure a jury to try the case.

THE Superintendent of the Zoological Gardens, Mr. Harry Piper, Toronto, says: "My case was aggravated rheumatism. I cured myself by the great St. Jacobs Oil."

ALL-WOOL plaids, 44 inches wide, new, just arrived from East, and placed in stock at $1 50 per yard. Hale Bros. & Co.

ON SATURDAY and Monday there will be opened 200 cases of goods for the holiday trade by the Red House.

A TERRIBLE PROPHECY.

The Red Sunsets, Cyclones and Farthquakes Foretelling Coming Disaster—How to Meet It.

The recent mysterious appearances following sunset and preceding sunrise have attracted wide attention from students of the skies and the people generally. During the days of recent weeks the sun seems to have been obscured by a thin veil of a dull leaden hue, which, as the sun receded toward the horizon, became more and more luminous, then yellow, then orange, then red; and, as night settled down upon the earth, a dull purple. At first it was thought these appearances were ordinary sunset reflections of light, but it is now pretty certain that they are either the misty substance of the tail of some unseen comet, in which the world is enveloped, or a surrounding stratum of world dust or very small meteors. Professor Brooks, of the Red House Observatory, Phelps, N. Y., has turned his telescopes upon these objects, and discovered what he thinks are myriads of telescopic meteors. If it is unorganized world dust, or decomposed vapors, as the *Democrat and Chronicle* of Rochester, N. Y., remarks, "How is this matter to be disposed of? Will it settle and form a deposit upon the earth, or remain a partial opaque shell about the earth to cut off a portion of the sun's light upon it?"

Whatever the mystery is, there is no denying that some very strange forces are at work in the upper airs. The terrible tornadoes and cyclones which have swept over our country, and the fearful volcanoes and earthquakes which have destroyed so many cities and thousands of people—the tidal waves which mysteriously rise and fall on coasts hitherto unvexed by them—the tremendous activity which is evident in the sun by the constant revelation of enormous spots upon its surface—all indicate unusual energy in the heavenly bodies.

These circumstances recall Professor Grimmer's prophecies that from 1881 to 1887 the passage of the five great planets—Mars, Neptune, Jupiter, Uranus and Saturn—around the sun would produce strange and wonderful phenomena. He says: "The waters of the earth will become more or less poisonous. The air will be foul with noisome odors. Ancient races will disappear from the earth." He attempts to prove his prophecy by the fact that in 1720, when Mars and Saturn made their passage around the sun coincidentally, great destruction and mortality visited all parts of the globe. He also found the same results in previous perehelion passages of the planets, and argues that these circumstances always produce epidemics and destructive diseases which will baffle the skill of the most eminent physicians; that the poor will die by thousands, the weak and intemperate falling first, those whose blood has been impoverished by excess of work or dissipation next, and only those who are in comparative vigor shall escape to enjoy the era of renewed activity and prosperity which will follow the period of destruction.

Inasmuch as the entire world seems subject to the sway of the heavenly bodies, no part of the earth, he thinks, can escape scourging. He even predicts that America will lose over ten millions of people; that farmers will be stricken with fear and cease to till the soil; that famine will make human misery more wretched. That hundreds will flee to overcrowded cities for aid in vain. That sudden changes in ocean currents, temperature and surroundings will entirely transform the face of nature and climate of countries; that the air will be so foul with malaria and other noxious gases, that those who survive will be troubled with disorders of the digestive organs. That many who escape other ills will bloat with dropsy and suddenly pass away, while others will grow thin and drag out a miserable existance in indescribable agony for weeks. Neuralgic pains in different parts of the body will torment them. They will easily tire and become despondent. A faint, hot feeling will be succeeded by chilly sensations, while hallucinations and dread of impending ill will paralyze all effort. "The birds in the air, the beasts of the field, and even the fish of the sea will become diseased, poisoning the air and poisoning the waters of the globe." We are told on the other hand that those who shall pass through this period of trial will have larger enjoyment of life and health. The earth will yield more abundantly than ever before. The animal kingdom will be more prolific and life prolonged very materially. This prolongation of life will be owing to the healthy electric and magnetic influences that will pervade the atmosphere. It would perhaps seem that the present rediness of the sun, and the presence of a belt or veil of cosmic matter, justified, in a measure, the prediction of Professor Grimmer, but disturbing as his prediction may be, we are told that our comfort that the strong and pure-blooded need have little fear in these calamities, that those who are delicate or indisposed should adopt means to keep the system well supported and the blood pure, and that the most philosophical and effective method of accomplishing this is to keep the kidneys and liver in good condition. From the testimonials of such men as Dr. Dio Lewis and Professor R. A. Gunn, M. D., Dean of the United States Medical College, New York, and thousands of influential non-professional people, it seems almost certain that for this purpose there is no preparation known to science equal to Warner's Safe Cure, better known as Warner's Safe Kidney and Liver Cure. This medicine has acquired the finest reputation of any preparation that was ever put upon the market. It is a radical blood purifier, which soothes and heals all inflamed organs, strengthens the nervous system, washes out all evidences of decay, regulates digestion, prevents malassimilation of food in a philosophical and rational manner, fortifies the system against climatic changes and malarial influences and the destructive agencies which seem to be so abundant in these "evil days."

It is not our purpose to dispute the correctness of Professor Grimmer's prophecies. As we have said, the marked disturbances of the past few years would seem to give a semblance of verification to his theory. It is certain, as above stated, that we are passing through what may be regarded as a crucial period, and it is the part of wise men not to ignore, but rather to fortify themselves against the possibility of being overcome by these evils. It is a duty which each man owes to himself and his fellows, to mitigate as much as possible the suffering of humanity, and in no way better can he accomplish this purpose than to see to it that he, himself, is fortified by the best known preparation in the strongest possible manner, and that he exert the influence of his own example upon his fellows to the end that they, too, may share with him immunity from the destructive influences which seek his ruin.

ASSASSINATION.

A Capitalist Shot to Death in San Francisco—Tragedy in a Law Office—Charles B. McLaughlin Killed by Jerome B. Cox—Statements of the Murderer and His Victim.

[San Francisco Bulletin, December 13th.]

Charles B. McLaughlin, the capitalist, was fatally shot about ten minutes past 10 o'clock this morning in his office, No. 16 Montgomery avenue, by Jerome B. Cox. Three shots were fired, and the wounded man died about half an hour afterwards. The tragedy grew out of the legal difficulties in which the two have been involved for some time. The news of the terrible affair spread from mouth to mouth on the streets, and soon the sidewalk at the foot of the stairway that leads to the office was crowded with people. The first that was known of the tragedy by the police was when, five minutes after the shooting, Arthur Casey, a young man employed in McLaughlin's office, came running breathless and hatless into the court of the Old City Hall. He darted in from the Washington-street side, and said excitedly to officer Samuel Alden, who was the only policeman in sight, "For God's sake come over quick to No. 16 Montgomery avenue." Alden ran after him, as fast as possible, up the stairs three steps at a time, and into the office. The room is at the end of a long, dark corridor on the second floor, and has been occupied with the deceased by Tully R. Wise, attorney. When the officer entered the office McLaughlin was lying on the floor perfectly conscious and bleeding from a wound in the neck. At his side in a chair and looking down upon him was Cox. Alden said, "Now, what's all this about?" and immediately took the wounded man up by both arms and raised him on to a lounge, which young Casey rolled out of an adjoining room.

McLaughlin then replied in answer to Alden's question, "He (pointing to Cox) asked me to give him $40,000, and when I refused he shot me."

Cox at this sprang from his chair excitedly, saying, "It's a lie!"

Alden busied himself caring for the injured man. He noticed he was growing weaker from the loss of blood, and fearing his death at any moment, decided to take down his statement while the young man had gone across the street for a doctor. In response to questions put to him hastily, the officer jotted down the answers.

M'LAUGHLIN'S STATEMENT.

McLaughlin repeated that Cox had shot him three times. He said that he was sitting alone in the office when Cox came in and demanded a statement; he replied that he was willing to settle without trouble, and asked him to go into the next room. They went in, when Cox demanded $40,000, and being refused he shot McLaughlin three times. While Alden was writing the statement down, Dr. C. G. Toland arrived and cared for the wounded man, administering brandy to revive him, as it was evident he was rapidly sinking. Cox had meanwhile been sitting coolly in his chair, watching the others.

Alden hurriedly searched McLaughlin, and found in his right-hand hip pocket a horn-handled knife with an extension blade that might be only about four inches in length, or twice that, as the holder desired. Cox stated that it was the knife that McLaughlin had endeavored to draw on him when he shot him. Alden decided that he had best take Cox into custody. He first searched him and found in his right-hand pants pocket a 32-caliber Smith & Wesson revolver of five chambers, with three of them empty. The barrel was still warm.

COX TAKEN TO PRISON.

Cox was then taken over to the Chief's office in the old City Hall, arriving there about 10:35, all the preceding events described having taken in their occurrence about twenty minutes. Chief Crowley immediately dispatched Detectives Dan Coffey and Colby to the scene of the shooting. It was evident that McLaughlin would live but a few moments, and Colby requested him to make an ante-mortem statement, Alden having omitted to state that he had already performed that duty. McLaughlin was very pale and could speak only with the greatest difficulty and apparent pain. By degrees, however, the following statement was obtained:

SAN FRANCISCO, December 13, 1883—10:50 A. M.

I believe I am going to die. My name is Charles McLaughlin. I am about 50 years of age. I was born in Pennsylvania. I was shot by J. B. Cox. He came to my room. I was sitting in my chair. He found me alone. He said to me: "Will you settle with me in that lawsuit?" He came there. I said then, "Mr. Cox, I would always settle without any trouble." He then said, "We will go into the room where there is no one—all will be settled." He put the pistol to my forehead and demanded $40,000. I said I would pay him $40,000 when it was settled. He then shot me and I pulled him toward the door and called for the young man Arthur, when he shot me again. I have always been willing to settle with the man on fair terms. He shot me three times, once in the neck, once in the breast and once in the stomach. The pistol was pointed first at my brain.

CHARLES McLAUGHLIN.

The names of Detectives Colby and Coffey and Dr. Toland were affixed to the document. The wounded man was raised up and asked to sign, but life was too fast ebbing away. His hand dropped helplessly down. Another effort was made, and the pen being placed in his fingers he trembingly made a mark upon the paper, and, falling back, expired in less than a minute.

The Coroner was notified immediately. The crowd about the doorway and foot of the stairs was so great that officer Conboy had difficulty to keep order and prevent the people from going into the office where the dead man lay. He was stretched upon the lounge where he had expired, his head resting upon a pillow, his knees slightly bent and raised up.

COX'S LITIGATION.

Cox was a sub-contractor under McLaughlin in the construction of some twenty miles of the Western Pacific Railroad between San Jose and Stockton, and has had a claim of over $300,000 against the deceased pending in our Courts for fully fifteen years. The action has been four times tried in this county and Alameda, Cox recovering judgments on every trial, but each time the Supreme Court has reversed the judgment on technical points and remanded the case for a new trial. Subsequent to the last decision of the Supreme Court, Justice McKinstry, who wrote the opinion which was concurred in by his associates, was assaulted by Cox on Geary street, but not seriously injured. In the long litigation decisions have generally been averse to Cox, and his friends claim that he has been driven to desperation by a series of misfortunes by which all his property has been swept away.

Captain Cox enlisted in the Federal Army in 1861, as Captain of an Ohio battery, and served under General Rosecrans. He was commended by the latter in general orders for his gallant defense in holding his position, under great pressure, at the battle of Stone River. General Bragg, who commanded the Confederate forces on that memorable occasion, in his reports stated that this battery repelled one of his advances and prevented him from turning one of the wings of the enemy. Captain Cox has a wife and two grand-daughters, one of them married and residing in New Jersey.

DETAILS BY TELEGRAPH TO THE "RECORD-UNION."

SAN FRANCISCO, December 13th.—Cox, after his arrest, said he regretted the deed, but felt that he had been compelled to do it; that he met McLaughlin by appointment to settle their difficulties. When he demanded $40,000 in settlement, McLaughlin made a motion as if to draw a weapon. He then, fearing that he would himself be shot, fired. He was booked for murder.

Rhodes says he heard McLaughlin say to Cox, "You shot me down like a dog." Cox replied, "You tried to shoot me." To the Coroner, Rhodes stated that he rushed into the room on hearing the shots, and found the men grappling, both having hold of the revolver. Rhodes tried to take it from Cox, when the latter said if they would let go he would shoot no more. Cox assisted to get McLaughlin into the next room, and sat by him while Rhodes went for a doctor and an officer.

CAUSE OF THE TROUBLE.

The trouble between the parties dates back to 1865, when Cox, with M. J. Arnold and Jackson R. Myers, took a sub-contract from McLaughlin to grade the Western Pacific from San Jose to Sacramento. After the completion of the first twenty miles they were stopped by the failure of McLaughlin to pay for the work completed, amounting to about $150,000. A lawsuit followed, and Cox & Co. recovered in the District Court of Alameda county. The Supreme Court reversed the decision. On the second trial the defendants demurred and were sustained. The plaintiffs refused to amend their complaint, and judgment was rendered for McLaughlin. The Supreme Court modified the judgment. On the third trial plaintiffs recovered judgment, and the Supreme Court again remanded the case for a new trial. Again Cox recovered judgment, and again the Supreme Court ordered a new trial. The same state of affairs occurred on another trial, and the case is still on the calendar of the Alameda Superior Court.

McLaughlin was well known throughout the State. He has been prominent in railroad construction, and was at the time of his death President of the Central Gas Company of this city. He leaves a wife, but no children.

Cox was a Captain of artillery under Rosecrans. He has a wife and three daughters, is about 56 years old, and has had a varied business experience.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.
